Sterling's 1944 Catalog

February 7th, 1944.

TO MY FRIENDS AND CUSTOMERS:

Please accept this, my catalog for 1944, with my very best wishes and my thanks for all your kindness, good wishes and sympathy extended to me and mine during the past year of 1943.

Many of us suffered severe losses during that momentous year and, sad to say, many more of us in these United States have got to take more losses of all kinds in this year of 1944.

I also wish to thank all my customers for their patience in the rush of last Spring. We not only had the heaviest mail order business we ever had, and a heavy counter trade, but also had sickness and death in the family.

So to you all my sincere thanks.

We regret our Brussels Sprout seed crop has been a near failure for two years now, and that we are unable to supply you with our Blue Ribbon strain seed only in very small quantities in proportion to your 1943 orders.

There are many other shortages in seeds this year but we have tried to order enough for our regular demands. Of course the prices have advanced on nearly all lines, not only in the cost of the seeds and sundries but also the cost of labor, and the amount of labor to be had is very limited.

Victory Gardens are still one of the most important activities for the season of 1944 and we wish all of you Victory Gardeners the very best of success.

We are striving to get the very best strains of Garden Seeds and Plants for your use and hope we can be of service to you.

And after choosing the right amounts and the right kinds for your requirements, don't be afraid of using lime and fertilizer in proper amounts. Remember nothing will grow without being fed. Here are some crops that need plenty of lime: Beans, Peas, Asparagus, Beets, Brussels Sprouts, Cabbage, Cauliflower, Limas, Carrots, Celery, Corn, Cucumbers, Lettuce, Muskmelons, Onions, Peas, Radish, Spinach, Tomato and Turnip.

With my very best wishes to you all, I remain,

Sincerely,

RALPH W. STERLING.

DIRECTIONS

By carefully reading and observing the following directions, mistakes will be largely avoided, and your order can be filled more promptly.

Please use the enclosed Order Sheet and self-addressed envelope if possible. If you need more, let me know and I will be glad to send more to you.

Write your name, address and shipping directions plainly.

Always send the cash with your order, unless otherwise agreed upon. Money may be sent by P. O. Money Order, Bank Draft or Registered Letter. Stamps may be sent for amounts under \$1.00, but be sure to put in three-cent stamps, wrapped in waxed paper.

We pay the postage on all seeds sold by the pkt., oz. and $\frac{1}{4}$ lb. Quantities over that are priced net, to be shipped by Parcel Post, freight or express, at purchaser's expense, unless otherwise stated.

If you desire your seed sent by Parcel Post, add 8c for the first lb. and 1c for each additional lb. of your order, allowing 2 lbs. extra for package. For amount of postage on plants see Plant Department. These rates are for anywhere on Long Island.

By pricing my seeds net, postage extra, you get your seeds delivered for less money than if I quoted a Postpaid price as the 8c per lb. extra would have to be counted in and added to each single lb. priced.

$\frac{1}{2}$ lbs. will be sold at lb. rates; $\frac{1}{2}$ bu. at bushel rates.

No charge is made for packing or packages.

NOTE—In all orders received before April 1st we include trial packets of different kinds of seed, the number of packets depending upon the size of your order. If you find any of these of particular value we would be pleased to hear of it.

If you cannot use this catalog or receive more than one, will you kindly pass it on to someone interested? Thank you.

NOTICE—I do not warrant in any way, express or implied, the description, quality, productiveness or any other matter pertaining to any seeds, bulbs, plants, shrubs or trees sold by me, and I will not be in any way responsible for the crop.

However, all complaints are carefully looked into and I try to adjust them satisfactorily to all.

SEED DEPARTMENT

"STERLING STRAIN"

Follow the mark of "Sterling." We are always looking for the best strains of seed and where we find a superior one we place the sign of "Sterling" on it, thus (S).

Harvesting World Record Peas at Nassau Farms

PEAS

WORLD RECORD, THOMAS LAXTON, LAXTON'S PROGRESS, LITTLE MARVEL, STRATAGEM and TELEPHONE are the gardener's favorites for table use and for canning. Sow these six kinds together and they will follow each other through the season.

World's Record, Thomas Laxton and Laxton Progress are the three kinds used for market. The prices quoted below for bushel lots are cash prices. Add 50 cents per bushel for time. Even though Peas should not pay as a market crop, the vines make fine green manure for Cauliflower, Brussels Sprouts and late Limas. Spurgeon keeps the seed from rotting in cold ground, and helps germination. See page 55.

GRASS, CLOVER AND ALFALFA SEED

Prices liable to change without notice.

Terms strictly cash.

I make my prices just as reasonable as is possible consistent with the quality. It is the very last fraction of 1% in purity that costs money. I believe that it pays big returns, too, as it is truer in seeds than in anything else that "the best is none too good."

In sowing Timothy alone without Clover, use 15 to 20 lbs. to the acre. If your land is sour and Grass and Clover does not do well as a rule, a little lime sown on top of the ground and harrowed in before sowing the seed would be a great help.

All our Clover and Alfalfa Seed grown in the Northwest U. S. A.

Border and Lawn fed with Vigoro

LAWN MAKING

Our Lawn Grass Seed is mixed from the very best grass seed, recleaned and free from weeds, and we sell many hundred pounds all over Long Island, as there is no better grade seed on the market.

Loosen the soil in which a new lawn is to be made to a depth of at least five inches, and lighten it with humus, compost or manure, if it is heavy and inclined to bake. Apply fertilizer liberally, either Sheep Manure, Bone Meal or Bovung, especially good for lawns. Use three inches of top soil or humus if too light.

Sow in the early spring when cool weather and ample rainfall will insure complete germination and a good start for the seedlings before hot dry weather comes. If seeding must be delayed, special precautions must be taken to prevent the ground drying out. Early fall is a very desirable time to seed, if moisture is sufficient.

See that the seed is well covered. Rake it into a new seed bed and roll so that the soil is firmed over the seed. Where seed is sown on an old lawn, always cover it with a top dressing of sand or soil and fertilizer. Seed thrown on the top of hard ground has no chance to grow and will merely wash off.

SHADY LAWN. Where there is only partial shade, the other Lawn Grasses are all right, but where it is quite shady, use this special mixture. 20% Seaside Bent in this mixture. Use Vigoro or Bone Meal twice a year to keep a good lawn in shade. 25 lbs. or more at 58c per lb.60	.62
ASTORIA BENT. A native Bent of finest quality. Most suitable for this section. Best quality95	
SEASIDE BENT. One of the best85	
CHEWINGS FESCUE. Best for shade70	
KENTUCKY BLUE GRASS. Fine for lawns. 98% pure40	
FANCY RED TOP. Quick growing, 99% pure28	

For a good, permanent lawn, use 1 lb. lawn seed to 400 sq. ft. 80 to 100 lbs. to the acre. For reseeding an old or poor catch, use half that amount. For quick results, use 1 lb. to 200 sq. feet.

STALEYMONIE

A new product for treating seeds, bulbs, seedlings, cuttings, etc. to stimulate root growth and thus make better, stronger plants that will produce more and will stand dry weather and insect infection better. "Staleymone" is not a fertilizer, not a fungicide, not an insecticidal. It is used in addition to these products.

Every user of "Staleymone" should secure from us a booklet telling about this new product. Full directions for use are inside each pkg. along with a measuring cup.

You are invited to come and look our shrubs over, as we are trying out many new kinds every year. The above are large clumps, balled and burlapped. Do not confuse these with the small whips advertised for a song. We have extra large shrubs at higher prices, and sometimes smaller ones for less money.

Mattituck, N. Y., Sept. 30, 1943—From 250 Break O'Day tomato plants I had from you I picked 5 bu. at once and in 2 days I picked as many more. The size and quality was excellent. The cheapest we sold No. 1 for was 10c per lb., 3 lbs. for 25c. No. 2 tomatoes sold readily at 75c per basket. The Rutgers Globe were fine but aphids injured them, so they did not do as well as the Break O'Day. All my garden was very satisfactory. Nantes and Perfection Carrot and World Record Peas in particular. J. B.

SULFOCID

A Better Summer Spray

Sulfocide is a powerful Summer fungicide—at low cost—for fruits, vegetables and flowers. When sprayed, it quickly decomposes, leaving a film of sulfur so fine as to be almost invisible except where drops accumulate.

1 quart makes 50 gals. of spray; 1 gallon makes 200 gals. spray.

Add 1 lb. Catalizer to each 50 gallons of spray, putting it in the tank first.

SCALECID

THE COMPLETE DORMANT SPRAY

"Makes a Tree Outgrow Its Troubles"

Fall spraying with Scalecide controls psylla and peach leaf curl. Spring application controls aphids, pear thrips, leaf miner, case bearer and leaf roller. Either fall or spring spraying with Scalecide controls scale, bud moth, European red mite, fungus or blight cankers from which are spread fire blight, collar rot and root rot. And in addition, year after year use of Scalecide invigorates the trees.

Rustic Bridge and Pond at Nassau Farms

REAL ESTATE DEPARTMENT

I have many choice lots, plots, houses, bungalows and farms on my lists for sale and for rent. If you are interested in Eastern Long Island Real Estate, get in touch with me at your earliest convenience.

I am always willing to consult, advise or act as your agent if you are desirous of buying or renting out this way or of selling property you own in this vicinity.

I am a Licensed Real Estate Broker and have been buying and selling Real Estate since 1926.

Why not put some of your surplus money into land this year? It will be here for you to enjoy when the war is over and we have peace.

NASSAU FARMS

A sixty acre tract laid out and developed by myself. There are forty houses and bungalows already built and occupied not only in the Summer time but some of them are year 'round homes, at Nassau Farms.

There are two large water-front lots, 70 ft. or more frontage on Bay Avenue and Baldwin's Creek and over 250 ft. in depth. These lots overlook Peconic Bay and face the west, where the prevailing winds come from. The waterfront has been improved. Sandy shore and good depth of water in front of the lots. All adjoining lots have been sold and three nice homes have been erected.

Plot No. 150 containing $7\frac{1}{4}$ acres. The north side of this plot facing on Sterling Road has been nearly all sold but there are 4 nice lots, each with about 70 ft. frontage on Bay Ave. and 250 ft. depth facing on Bay Ave. and only a short walk from Peconic Bay. These lots overlook Broadwaters and the Bay. There is also the Pond with a beautiful grove on three sides of it and 225 ft. on Bay Ave. There is an island in the Pond with Rustic Bridge, a windmill connected with brook and goldfish pond, a stone fireplace for broiling steaks (?) and this whole plot containing about $1\frac{1}{2}$ acres can be bought very reasonable.

Plot No. 105, a five-acre plot of good soil, suitable for any crop. This plot has 70 ft. of frontage on Bay Avenue and 20 ft. on Baldwin Creek and is priced very reasonable. Good terms can be arranged on all the above pieces of property.

Have five large lots on Lilac Lane and 425 ft. on Sterling Road.

NASSAU FARMS (Cont.)

Some of this property is wooded and some is clear land. From 150 to over 200 ft. in depth. Your choice of any of these lots and plots at a very low price per front foot. Nothing less than 70 ft. front sold.

HURRICANE HALL

This is the old Horton House, built over 200 years ago. I have had it moved to higher ground and rebuilt so that it is a very well built house and ready for occupancy. There is electricity and running water.

Instead of giving a full description of this old salt-box type house, I am extending to anyone interested an invitation to stop in and look the place over. Keys at my place or at Mrs. Leslie's.

The house stands on a large plot of ground, 140 ft. on Bay Avenue and over 240 ft. in depth. And it also includes 70 ft. of frontage on the improved waterway across Bay Avenue on Baldwin's Creek, leading out to and overlooking Peconic Bay.

There is also a five-acre plot adjoining that can be included with Hurricane Hall, making nearly six acres in all.

Have priced Hurricane Hall at a reasonable price, considering location, construction and permanent value, and very good terms can be arranged.

A large map showing location, size and price of all the lots and plots at Nassau Farms can be had for the asking. Ask us for one.

STERLING INLET AND OTHER LOTS
AT NASSAU POINT

I own three large lots at Nassau Point, Nos. 224, 225 and 226. These lots front on Wunnewetta Harbor on the west and there is good depth of water from these lots through a deep channel to Peconic Bay. Each lot has more than 100 ft. frontage on the water and over 300 ft. in depth.

Large oak trees cover the whole plot and there is a small pond in the center. The combination of high ground and low ground makes this plot one of the potential beauty spots of Nassau Point.

The three lots are to be sold in one large plot only, not separate, and I have priced them very reasonable. One-third cash, balance at 4%, if desired.

Have the sale of five large wooded lots near Sunset Bluff on Broadwaters. A wonderful view and a good harbor makes this plot another outstanding buy. Also a large corner lot just back of Sunset Bluff near the Cove. These lots are priced at \$1,000 each.

CARRINGTON PARK AT NASSAU POINT

I own ten large lots near Horseshoe Cove and Wunnewetta Harbor. Four of these lots, Nos. 421, 422, 423 and 424, are located on the east side of Little Peconic Bay Road and are wooded, with good elevation and I have priced these four very reasonable. Ask for prices.

The other six of the lots at Carrington Park, Nos. 322, 323, 324, 325, 326 and 326A, are west and north of Vanston Road. They are well wooded, high and very near the Cove, as fine inside lots as can be found anywhere. Your choice of any one of these six lots for little money. You can best appreciate these choice lots by looking them over. We have cleared them up recently and you can now see what fine lots they are. They are nicely wooded.

FISHERMAN'S BEACH AT NASSAU POINT

Peconic Bay frontage. A nice lot on beautiful Peconic Bay. This lot has 65 ft. on Peconic Bay. Good fishing, clamming, crabbing, a safe harbor and swimming right at your front door. Beautiful, sandy beach. Priced very low. Ask us about this attractive lot.

LONG ISLAND SOUND

2,000 ft. frontage on beautiful Long Island Sound. Some of it west of Duck Pond Road, but most of it to the east. High elevation, fine view, good depth. Priced at \$25.00 per front foot. Some for less.

I have many other attractive plots on Eastern Long Island. Would be pleased to show them to you.

Ask me for prices and descriptions on any of these attractive lots and plots, farms, houses and bungalows.

COUNTRY CLUB PARK AT NEW SUFFOLK

A 20-acre wooded tract overlooking Peconic Bay and adjoining the North Fork Country Club Golf Course.

This tract fronts on New Suffolk Avenue, where there are many beautiful Summer homes. There are many choice lots along this Avenue to choose from and they all have free access to the Bay, as there is a 33-ft. roadway leading direct to the Bay, owned by the same people who own Country Club Park, and the right to use this roadway to the beach and Bay goes with the title to your lot.

THREE GOOD FARMS

Twenty-eight acres at Southold. One of the best potato farms there is on Long Island. House and buildings in the very best condition. All improvements. 375 bu. potatoes per acre is the average crop yield for this farm. Priced at \$25,000.00.

12 1/3 acres at Peconic. 400 ft. frontage on Bay Ave. All but about 1 acre 1st class land. Priced right.

Forty-five-acre farm with beautiful Sound frontage. An old salt-box house in good repair with barn and outbuildings. Most of this farm is good potato land and balance is good for beans, cauliflower, etc. Some woodland. Prices and terms on request.

FIVE GOOD HOUSES ON OR NEAR WATERFRONT

House at Fleet's Neck, all furnished, with heater and other improvements. This house is on a large lot and also has a 10-ft. right of way to channel suitable for a fair sized boat. For sale or rent. Sale price, \$5,250. Will rent from early to late for \$400.00.

Nassau Farms. Four-room cottage with all improvements, located on Little Creek and overlooking Peconic Bay. A beautiful location in the woods, a nice house furnished. Priced at sale price of \$2,800. Only \$1,000 cash needed.

Nassau Farms. Six-room bungalow. Four bedrooms, large living room and dining room combined, kitchen, screened porches, improvements. The lot has 100 ft. frontage on Pine Tree Road and is about 150 feet deep. Priced very low.

Southold Waterfront Property. 75 ft. on water, 75 ft. on Hobart Road, 200 ft. in depth. Large five-room house with both heater and all improvements.

Nassau Farms. Five rooms and bath. Three bedrooms, large living room with fireplace, kitchen. All improvements except heater.

An Artistic Scene at Creekside

FIVE GOOD HOUSES—Continued

Furnished. Large lot with 70 feet on improved waterway. Priced at only \$5,000.00.

The above houses and farms are quoted with the understanding that prices may be changed or the properties may be taken off the market without notice.

I have many other pieces of property, bungalows, farms and shorefronts on my list. Let me know what you are looking for and I will try my best to help you.

CREEKSIDE

1200 ft. of frontage on Eugenes or James Creek containing about 10 acres of woods, meadow and clear land. Some beautiful building plots with good elevation, fine view and good water front.

Also an old farm house complete with all improvements, including electric lights, bathroom, fireplace, hot air heater, etc. The house has kitchen, living room, parlor and den downstairs and four bedrooms and bathroom upstairs. Both front and back stairs. 50 ft. of frontage on Route 25 and 50 ft. on Eugenes Creek with nearly 2 acres of land goes with the house and garage. Priced very reasonable. Would be pleased to show it to anyone interested.

Southold, N. Y., Dec. 14, 1943—Your Ruta Baga seed grew fine for me. I sowed over 2 lbs. of your seed on the 2nd of August and harvested the best turnips in Southold.

May I substitute if out of any kinds ordered?

What Did You Do Today, My Friend?

What did you do today, my friend,
From morn until night?
How many times did you complain
The rationing is too tight?
When are you going to start to do
All of the things you say?
A soldier would like to know, my friend,
What did you do today?

We met the enemy today
And took the town by storm.
Happy reading it will make
For you tomorrow morn.
You'll read with satisfaction
The brief communique.
We fought, but are you fighting?
What did you do today?

My gunner died in my arms today;
I feel his warm blood yet.
Your neighbor's dying boy gave out
A scream I can't forget.
On my right a tank was hit,
A flash and then a fire;
The stench of burning flesh
Still rises from the pyre.

What did you do today, my friend,
To help us with the task?
Did you work harder and longer for less,
Or is that too much to ask?
What right have I to ask you this?
You probably will say.
Maybe now you'll understand;
You see, I died today.

This poem appeared in the "Falmouth Enterprise" and the "New York Herald Tribune."
It was written by a lieutenant in the U. S. Army on a North Africa battlefield after
losing his foot. He was found by his comrades and his life was saved.
